Qijia Shao

6211 Sudikoff Laboratory, Hanover, NH 03755
(+1) 608-598-7425
Qijia.Shao.gr@dartmouth.edu

Research Interests

My research spans a range of different topics in **Ubiquitous Computing** and **Human-Computer Interaction**. I design, build and evaluate novel mobile systems, especially sensing systems. I have developed fabric sensing system for continuous joint monitoring. I am recently investigating in cyberlearning and technological assistance for teaching human motion tasks, which includes reliable sensing of human body configuration, actuation for feedback-based guidance, algorithms for communicating motion and computational techniques for evaluating motion quality.

Education

2018-Present **Dartmouth College**.
Ph.D. student in Computer Science
Advisors: **Prof. Xia Zhou and Prof. Devin Balkcom**

2014-2018 **University of Electronic Science and Technology of China**.
B.E in Electronic and Information Science, Yingcai Honours College
Advisor: **Prof. Jun Wang**
GPA: **3.99/4.0**

2016-2017 **National Chiao Tung University**.
Exchange student in Electrical Engineering
GPA: **4.0/4.0**

Appointment

Sep 2017 - Apr 2018 **Missouri University of Science and Technology**.
Research Intern
Advisor: **Prof. Yahong Rosa Zheng**
-Worked on statistical signal processing in undersea acoustic communications and networks. Similar to the cognitive radio perspective, we design algorithms to predict and utilize the time gap between the already existed undersea acoustic communication to increase the system throughput.

Selected Honors & Awards

2018 Excellent Undergraduate Student at UESTC

2018 Outstanding Undergraduate Thesis at UESTC

2016, 2017 National Scholarship, by the Ministry of Education of China

2017 Silver Prize in Chinese University Students Innovation and Entrepreneurship Competition

Teaching Assistant Experience

Fall 2018 **COSC 74/174 Machine Learning and Statistical Data Analysis**, *Dartmouth.*

-Held office hours, graded and wrote solutions for assignments and exams, and explained the exams.
